

Sound Booths

Soundproof Full-Size Walk -In Booth

This booth can accommodate one or two simultaneous **conference interpreters**. The full-size booth provides better soundproofing in noisy conference environments, but does have a larger footprint on the conference floor.

This style of soundproof booth is currently available for rental to exceed the latest ISO-4043 standards and are suitable for all types of conference interpreting systems.

Portable Booth

IsoPacs E are fully enclosed voice booths that only have a 6` diameter size. This booth is a portable, small sized vocal booth that is best suited for interpretation functions or as a voice over booth. These vocal booths are lightweight and portable and cost about half the price in rental and shipping

Table-top soundproof booth.

Table-top soundproof booth is ideal for applications where space is limited. Our 6 foot Tabletops are of top quality and can be used in small locations.

Contact us at 1-888-790-TUSA if you have questions. Our audio engineers will advise you on the best soundproof booth to use given the available space for your conference, ambient noise levels, the number of set-ups and break-downs, and your budget.

Transmitters

LT-800 Stationary FM Transmitter

Listen Tech LT-700 Portable FM Transmitter. © Listen Tech, Inc. All rights reserved. In

Listen Tech LT-700 Portable FM Transmitter

The LT-700 Portable Transmitter will broadcast your interpreter or tour guide`s voice to everyone in the audience, without having to carry a microphone or be plugged into the wall. Excellent for factory tours, outdoor events, wireless microphone applications, classroom or training, or personal use -- anywhere you need to amplify sound but don`t have (or want) an installed sound system! The signature Look&Listen™ LCD shows channel, lock and battery level. It takes AA batteries (alkaline or NiMH rechargeable). SmartCharge™ capabilities prevent overcharging of batteries. The antenna is in the mic cord and it has an adjustable mic sensitivity switch.

Portable Receivers

Smart Bug

Smart Bug is a standalone, onsite broadcast system made up of a transmitter and lightweight wireless audio receivers that allow the broadcast and crystal clear audience reception of a variety of audio content for event and meeting attendees. Using the "plug-and-play" transmitter, spectators can listen to customized audio, announcements and a full-range of information on their personal receiver while simultaneously watching all the action. Smart Bug offers three different receiver models- one-, two- or three-channel receivers. The multi-channel receivers have many uses:

1. >Simultaneous broadcasts in multiple languages
2. >Television feeds
3. >Internet broadcast
4. >Custom audio feeds
5. >Public safety announcements
6. >Broadcast of the venue announcer

Smart Bug has been used at hundreds of events around the U.S., Canada, Australia and Russia in a broad range of uses, including sporting events, Conferences, trade shows, at religious gatherings and, most recently, at Olympic test events in Vancouver. The Smart Bug

costs 30% less and can be used up to three languages.

Listen Tech LR-300-072 listen digital FM receiver

This pocket-sized LR-300-072 is a low cost 100% digital receiver. The LR-300-072 is digitally tuned so transmission will not drift; assuring that when you select a channel, it stays on channel. This model has the same exceptional audio quality as Listen`s full-featured receivers, the **LR-400** and

the

LR-500

, plus the same convenient recharging options. The LR-300-072 utilizes the 17 most common wide band channels (unless electronically locked on one channel), with a "SEEK" channel selection button behind the mechanically locking door, thus discouraging end users from changing the channel selected. Electronically lock on channel by holding the "SEEK" button down 5 seconds to prevent tampering. The LR-300-072 does not use an LCD, but instead a multi-function LED. The exclusive built-in belt clip "loop", located on the back, prevents the unit from slipping off of your belt or strap.
